# THE CLASSIC LINE

## THE HERITAGE OF ELECTROCOMPANIET

The Electrocompaniet Classic Line has a timeless yet distinctive aesthetic. The design is simple, clean and understated whilst maintaining a thoroughly modern flair.

Our aim when developing and testing new products is to ensure that the wonderful richness of tone and every nuance of feeling and emotion of a piece of music is delivered to you just as the artist intended. We continually strive to give you the very best musical listening experience available whatever your preferred musical genre.

REFERENCE CD PLAYER

# EMC 1 MKV

Since 1998, Electrocompaniet has produced one of the best sounding CD players on the market, the EMC 1 and its successors. The new EMC 1 MKV builds on this legacy and refines by using a new drive unit. It features a unique cancellation system which cancels acoustic and mechanical vibrations, preventing the laser pick-up from receiving unwanted and sonically degrading signals.

DAC AND MUSIC STREAMER

# ECM 1 MKII

The new ECM 1 MKII is our High-End DAC and music streamer. With the brand new, in-house developed streaming platform, it plays high-resolution digital content in a way that really makes you want to dig deeper into all the delightful music out there.

ELECTROCOMPANIET

REFERENCE PREAMPLIFIER

## EC 4.8 MKII

With its outstanding performance, excellent resolution, superb control and precise musical reproduction, our new two-channel EC 4.8 MKII preamplifier is sure to make all good power amplifiers sound even better! The preamplifier is a stylish slim-line design and offers fully balanced operation from input to output. It is designed as two separate mono preamplifiers, each with its own independent power supply.

ELECTROCOMPANET

BALANCED PHONO STAGE

## ECP 2 MKII

The ECP 2 MKII design goal has been to keep the signal path as short as possible using state of the art circuit topology and parts. It strictly follows the standard RIAA playback equalization curve, having also a steep low frequency roll-off to filter out subsonic noise. It accommodates any imaginable pick-up and cable combination, thanks to its highly configurable input stage.

MONO POWER AMPLIFIER

# AW 180

Electrocompaniet is one of the pioneers in solid-state amplifier design, and the sound of the AW 180 is a very good example of this legacy; it sounds outstanding and provides a very natural timbre and exceptionally realistic soundstage. Moreover, the AW 180 does not become any less outstanding as music gets larger and more complex.

**SPECIFICATIONS**

- Input impedance: ..... 330 kΩ
- Frequency response: ..... 0.1 - 100 kHz
- Noise floor: ..... < -110 dB
- Output impedance: ..... < 0.008 Ω
- Damping factor: ..... > 1000
- Maximum peak current: ..... > 120 A
- THD+N: ..... < 0.003 %

**OUTPUT POWER**

- 8 Ω: ..... 250 W
- 4 Ω: ..... 380 W
- 2 Ω: ..... 625 W

**DIMENSIONS - WEIGHT**

- Width: ..... 215 mm / 8.5"
- Depth: ..... 470 mm / 18.5"
- Height: ..... 288 mm / 11.3"
- Weight: ..... 22 kg / 48.5 lbs

STEREO POWER AMPLIFIER

# AW 250R

For toe-tapping, music loving audio enthusiasts, Electrocompaniet AW 250R should be on your short list to audition. It is a pinnacle power amplifier for anyone truly interested in pure musical satisfaction. Based on the AW 180, it combines all the power and musicality of the AW 180 in a stereo configuration.

**OUTPUT POWER**

- 8 Ω: ..... 250 W
- 4 Ω: ..... 440 W
- 2 Ω: ..... 625 W

**DIMENSIONS - WEIGHT**

- Width: ..... 483 mm / 19.0"
- Depth: ..... 450 mm / 17.7"
- Height: ..... 210 mm / 8.2"

- THD+N: ..... < 0.003 %

MONO REFERENCE AMPLIFIER

# AW 400

The Electrocompaniet AW 400 is a powerful mono amplifier with a characteristic fast and clean sound. It is fully balanced from input to output. The AW 400 power amplifier has a first-class overall circuit design and state-of-the-art components which provide uncompromising sonic and mechanical quality.

#### SPECIFICATIONS

- Input impedance: ..... 330 k $\Omega$
- Frequency response: ..... 0.1 - 130 kHz
- Noise floor: ..... < -110 dB
- Output impedance: ..... < 0.015  $\Omega$

MONO/STEREO  
REFERENCE POWER AMPLIFIER

# AW 800 M

The AW 800 M is Electrocompaniet's brand new, from the ground up re-engineered flagship power amplifier. It replaces the legendary AW 600 NEMO as our most powerful monoblock power amplifier. The amplifier showcases an updated, yet unmistakable and distinctive Electrocompaniet design that is a perfect match for all current and legacy Electrocompaniet products.

#### DIMENSIONS - WEIGHT

- Width: ..... 410 mm / 16.14"

# Introducing the All-New AW 800 M

With all the changes and improvements made in the AW 800 M, one thing that has not changed is the unique Electrocompaniet design philosophy and sound signature. The AW 800 M encompasses the Electrocompaniet direct coupled high open loop bandwidth topology, further enhanced with high slew-rate and very high bandwidth amplifier stages. In addition, a brand-new output stage is designed that heavily shields the input and driver stages from the load and makes the output extremely stiff and unaffected by the connected load. This has the added benefit of significantly simplifying the workload of the already gently working feedback system and thus provides vanishingly low distortion figures. The output stage incorporates a total of 32 high bandwidth, high current bipolar output transistors that unstrained can deliver very high currents to the load.

To feed the output stage the power supply is heavily updated and now has a total of 210000 uF supply filtering. Mains power input is DC and RF filtered ahead of the wire gauge upgraded, twin toroidal transformers that are magnetically and electrostatically shielded to keep any noise from intruding. The internal ground reference has been vastly over dimensioned and kept fully free of rectifying and output currents. The result is a very clean, noise free output signal regardless of output power, providing a very stable sound stage with the blackest background possible at any sound level.

An intriguing new attribute of the AW 800 M is the ability to switch between mono, stereo and bi-amping operating modes, enabling you to upgrade your system or change your configuration while retaining your initial investment. Comfort upgrades are on/off switchable auto power down and switchable feature lighting, user switchable 115/230V mains voltage input as well as trigger input - output.

We are confident that from the first note of any familiar recording, you will be captivated by the AW 800 M and by the musical enjoyment it will give you.

## TECHNICAL SPECIFICATIONS

- Input impedance: .....330 k $\Omega$

- Power consumption standby: ..... 0.5W

INTEGRATED AMPLIFIER

# ECI 6 MKII

The ECI 6 MKII is a high performance, fully balanced integrated amplifier. The input stage is built from discrete circuits running in class A with zero feedback. The output stage is carefully balanced between good bass extension and control, a detailed open midrange, and a warm detailed top. All to ensure that the ECI 6 MKII will reproduce your favorite music the way it was recorded.

INTEGRATED AMPLIFIER DAC AND STREAMER

# ECI 6 DX MKII

In addition to the qualities of the ECI 6 MKII, the ECI 6DX MKII add streamer and DAC capabilities. The built-in streamer is extremely powerful, flexible, and easy to use. The powerful hardware ensures that all popular audio formats are supported (including DSD) and that continuous software upgrades can support the latest and greatest streaming services.

INTEGRATED AMPLIFIER

# ECI 80D

The ECI 80D is our brand new integrated amplifier offering a complete all-in-one solution for your HiFi needs. In addition to multiple analog and digital inputs we have equipped it with a RIAA preamplifier and a headphone amplifier with two outputs. Bluetooth® HD is also included for both streaming from your iOS or Android device, and to your Bluetooth headphones.

### CONNECTIONS

- TOSLINK optical SPDIF inputs
- Coax SPDIF inputs
- Multiple analog inputs/outputs
- Bluetooth® aptX™ HD
- Headphone 3.5 / 6.35mm output jack
- Wireless Bluetooth® headphone
- Moving Magnet phono input
- Control: 12V trigger

### SPECIFICATIONS

- Input impedance: ..... 75 kΩ
- Frequency response: ... 1 – 150 kHz
- Noise floor: ..... < -130 dB
- Damping factor: ..... > 300
- Signal-to-Noise Ratio phono in: 83 dB

## STREAMER AND DAC MODULE UPGRADE

Upgrade module for the ECI 6, ECI 6D, ECI 6 DS and ECI 6 MKII to a DX. Includes EC Software Engine, DAC, streaming and network module.

## RCA/XLR ADAPTER

The RCA female to XLR male adapter is used to connect a single-ended RCA output to balanced XLR input.

## SPIDER CLAMP

The Spider clamp is developed to make the EMC 1, EMC 1UP, EMC 1 MK IV and MKV perform even better. In addition to holding the CD down on the spindle the Spider clamp also stabilizes the CD during playback. The Spider clamp is available in black and silver.

## EC LIVING FLOOR STAND

The TANA speaker stand is especially designed to be used with our TANA speakers. Featuring a black powder-coated hollow steel frame, the power cable and other cables can be run through the stand for a sleek look.

# ACCESSORIES

All Electrocompaniet streaming products can be controlled from any tablet, smartphone, or PC/Mac. Our free EC PLAY app for iOS and Android offers easy access to all features and settings of the system.

**THE**  
**EC LIVING**  
**LINE**

**MODERN AND WIRELESS  
MULTIROOM AUDIO**

The EC Living Line is a wireless and modular audio system of speakers, amplifiers, and streaming devices that can be combined into one wireless system with the highest standards of quality. The EC Living Line is pure Scandinavian design and engineering, designed and manufactured in Norway. It is inspired by Norway's beautiful landscapes and rich heritage.

All Electrocompaniet knowledge is put into the EC Living Line. The way we listen to music may change, but our dedication to quality remains.

WIRELESS SPEAKER WITH STREAMER

## TANA SL2

The 2nd generation TANA SL2 is an all-in-one solution. A wireless loudspeaker, an amplifier and audio streamer. It can play music from your collection or files from the Internet. Control is easy, either via our app or a web browser. On its own it is a perfect companion to bring music to the kitchen, home office or living room. Combine it with the active loudspeaker TANA L2 to create a wireless HiFi stereo system.

WIRELESS ADD-ON SUBWOOFER

# SIRA L1

Use the SIRA L1 to upgrade an EC Living system with even more weight and presence. Even though this model has all the power of big subwoofers it is compact in size. That way you can feel and hear the added weight of the bass drums, not noticing the subwoofer. Like every other EC Living speaker model, it is totally wireless.

#### SPECIFICATIONS

- 32 bit floating-point DSP audio processing
- 200 W Class D amplifier
- Frequency response: 30-150 Hz
- Acoustic design with dual subwoofer drivers and passive radiator.
- Rigid metal enclosure
- WiSA® Certified

#### CONNECTIONS

- 96 kHz/24 bit proprietary dedicated wireless speaker network
